Welcome Message from CTI

To our CALBO members, industry professionals, and partners, thank you for your unwavering commitment to excellence and education in building safety.

CTI remains committed to delivering top-tier education as an International Code Council Preferred Provider. Whether attending in-person or virtually, our courses support your continuing education requirements while strengthening your expertise. After each course, all students receive an attendance certificate with the necessary details for self-reporting. Please store your attendance certificates in a safe place to report your CEUs to ICC for certification purposes.

As we embark on another year of growth and innovation, the CALBO Training Institute (CTI) is excited to introduce new learning opportunities tailored to meet the evolving needs of the building safety community. This year, we are proud to once again offer our Annual Education Weeks, bringing together professionals for an engaging and dynamic learning experience. Mark your calendars! The [2025 Education Weeks](#) will take place in Burlingame from September 29 – October 2 and Costa Mesa from October 27 – 30. With both in-person and virtual options, your department has the flexibility to achieve CEUs while maintaining essential daily operations. Our updated course catalog features over two dozen courses updated with the new 2025 codes. Whether you are a permit technician, plan reviewer, inspector, or building official, there's something for you.

In celebration of Building Safety Month this May, CALBO will host the annual [Building Officials Leadership Academy](#) (BOLA) from May 5-9 in Costa Mesa, welcoming a new group of professionals dedicated to advancing their careers in building safety. For those interested in attending the 2026-27 Academy in Sacramento, please email info@calbo.org to add your name to the waitlist.

Building on last year's success, the [Permit Technician Career Advancement Academy](#) will also return this fall, hosted at the Burlingame and Costa Mesa Education Weeks. Interested participants can join the waitlist by emailing info@calbo.org, and full details will be available on the Permit Technician Academy page in June 2025. A variety of webinars are available for counter technicians covering contractor state licensing board, accessory dwelling units, zoning, solar PV, and nonstructural building and residential codes.

For those seeking flexible learning options, a series of [live webinars](#) are scheduled in the spring and summer. To get a sneak peek at the 2025 California Codes before Education Weeks, webinars covering the new code changes are being offered to help you stay ahead in an ever-changing regulatory environment. These webinars highlight the code changes to the building code, residential code, energy code and much more. Monthly live webinar opportunities are listed on the [CALBO Calendar](#) — be sure to check back regularly.

Finally, I want to extend my gratitude to our CTI Commissioners, course developers, and instructors, whose dedication makes these programs possible. Your expertise and passion drive our mission forward.

Here's to another year of learning, collaboration, and progress!

Burlingame Registration Deadline: Thursday, September 18, 2025 at 5:00pm
Costa Mesa Registration Deadline: Thursday, October 16, 2025 at 5:00pm

Education Weeks Outline

If you have questions, please contact the CALBO Office at 916-457-1103 or info@calbo.org.

Burlingame Education Week Venue Summary

- In Person and Virtual Attendance
- Hyatt Regency San Francisco Airport
- Day Self-Parking: \$15.00 per vehicle, per day with special validation
- Overnight Parking: \$20.00 per vehicle, per overnight. *This rate must be requested and is not guaranteed if overnights are NOT booked through the CALBO hotel room block.*

Costa Mesa Education Week Venue Summary

- In Person and Virtual Attendance
- Hilton Orange County/Costa Mesa
- Day Self-Parking: \$10.00 per vehicle, per day with special voucher
- Overnight Self-Parking: \$22.00 per vehicle, per overnight. *This rate must be requested and is not guaranteed if overnights are NOT booked through the CALBO hotel room block.*

Online Registration

Please register online at www.calbo.org. Only online registrations are accepted. Registration is available first-come, first-served until at capacity.

Registration Deadlines

Burlingame Registration Deadline: Thursday, September 18 at 5:00pm sharp, no exceptions
 Costa Mesa Registration Deadline: Thursday, October 16 at 5:00pm sharp, no exceptions

In Person Fees

Full Week (4 full-day courses, same person, same venue)
 Full-Day

Member

\$805.00
 \$240.00

Non-Member

\$1015.00
 \$305.00

Virtual Fees

Full Week (4 full-day courses, same person, same venue)
 Full-Day

Member

\$545.00
 \$165.00

Non-Member

\$745.00
 \$215.00

Cancellation Policy/Transfers

Written notification of cancellation must be received by info@calbo.org seven (7) days prior to the first-day of the event for a refund, minus a 25% processing fee. Any cancellations after this date are not granted, and the registrant is responsible for full payment. No-shows are not refunded. Transfer requests must be emailed seven (7) days prior to the first-day of the event. After this date, attendance changes from virtual to in-person or in-person to virtual are NOT accepted. All transfer requests or changes are not guaranteed. Please email info@calbo.org for all changes.

Course Schedule

Full-Day Courses: 8:00am - 3:30pm (Each course is 6 hours of instruction - 0.6 CEUs)

Special Needs

CALBO must be notified of any special accommodation or dietary needs at least fifteen (15) days prior to the start of the event. Special dietary meal requests are not guaranteed.

Education Weeks Outline (continue)

Technical Requirements for Virtual Attendance

Each virtual attendee is emailed their GoToWebinar personalized link 48 hours before each course to access their online classroom using a desktop, laptop or another electronic device that has a visual and audio component. Please download the GoToWebinar application and use Chrome as your internet browser prior to your course(s).

Virtual Classroom Experience

CALBO has invested in production resources to ensure your virtual experience is second to none. Virtual attendees may use their unique GoToWebinar join link to enter their virtual classroom any time after 7:30am on the course day.

Each course is taught live by a skilled and knowledgeable subject matter expert in front of a live audience. However, we added an additional subject matter expert in the classroom to work with our virtual attendees in real-time. Attendees may pose questions through the chat function on GoToWebinar and expect to receive a response in real-time. This is not a canned experience.

Course Materials

Each attendee is emailed, whether attending in-person or virtually, a link 48-hours before each course to download the instructional materials. Printed materials are not provided to in-person or virtual attendees.

Meals

Each in-person attendee receives morning and afternoon refreshments along with lunch each day.

Breaks

Two (2) ten-minute breaks are offered in the morning at 9:00am and 10:15am along with two ten-minute breaks in the afternoon at 1:15pm and 2:30pm. A full hour break is given for lunch from 11:15am - 12:15pm. These timelines are strictly followed in each classroom. **IMPORTANT:** If attending virtually, please do not log out during the breaks.

Attendance Certificate

Each attendee is emailed their attendance certificate, which is also printable, within 48 hours of each course. All courses are approved by the ICC Preferred Provider Program and most courses are approved by The American Institute of Architects (AIA). Please check the course descriptions for further information. For six-hour courses, 0.6 CEUs are granted. **IMPORTANT: Virtual attendees must log into their online classroom using their personalized GoToWebinar join link (not course phone number) to watch the entire course to receive credit. Calling into the webinar without using the link to watch the course disqualifies an attendee from earning CEUs and an attendance certificate will not be issued.**

 **If you have questions, please contact the CALBO Office at 916-457-1103 or info@calbo.org.**

2025 CTI Education Weeks

Monday Course Descriptions

2025 California Building Code: Significant Changes - New

ICC PP Course No. 45719 (0.6 CEUs) - In Person

ICC PP Course No. 45720 (0.6 CEUs) - Virtual

AIA Course No. 11: 2025 (6 LU | HSWs)

This course examines the significant revisions to the latest California Building Code (CBC) with focus on the non-structural amendments. The course is conducted in a workshop format with the instructor and attendees participating in active discussions of the revisions. The course highlights those areas that have been revised from the 2025 CBC with other code topics welcomed for discussion; chapter 11A and 11B topics are not covered in-depth. Building officials, architects, designers, engineers, plans examiners, field inspectors, and counter technicians are encouraged to attend. The course is appropriate for experienced and not-so-experienced users of the CBC. All attendees receive a joint CALBO/ICC publication.

California Wildland-Urban Interface: Navigating New Part 7 of Title 24, California Building Standards Code - New

ICC PP Course No. 405802 (0.6 CEUs) - In Person

ICC PP Course No. 405803 (0.6 CEUs) - Virtual

AIA Course No. 22: 2025 (6 LU | HSWs)

This course provides an in-depth overview of the newly established Part 7 of Title 24, The California Wildland-Urban Interface (WUI) Code. Participants explore key regulatory changes designed to enhance fire safety in wildfire-prone areas, including construction and defensible space requirements. The course provides examples and opportunities for discussions to gain insights into applying the WUI Code to residential and commercial projects. After the course, participants will be able to navigate the reorganization and implementation of current regulations. This course is ideal for architects, builders, building officials, fire officials, and code enforcement professionals.

Fundamentals of Means of Egress in the 2025 California Building Code - New

ICC PP Course No. 45818 (0.6 CEUs) - In Person

ICC PP Course No. 45819 (0.6 CEUs) - Virtual

AIA Course No. 25: 2025 (6 LU | HSWs)

This course provides a structured approach to learning the fundamentals of exiting requirements of the 2025 California Building Code, Chapter 10 and the three-part means of egress system. It emphasizes practical methods of reviewing and inspecting egress systems, while also addressing code changes from the California State Fire Marshal's adoption of CBC/CFC Chapter 10 through the CCR Title 19. Join us to enhance your knowledge of these critical safety measures within building design and compliance. Permit technicians, building and fire plan reviewers and inspectors are encouraged to attend.

2025 CTI Education Weeks

Monday Course Descriptions

continue

Permit Technician Career Advancement: The Core Essentials

ICC PP Course No. 31998 (0.6 CEUs) - In Person

ICC PP Course No. 31999 (0.6 CEUs) - Virtual

This course provides the core essentials that all permit technicians should know for their daily work duties. Attendees learn what to understand for permit requirements, how to maintain records, how to collect permit fees, how to support the inspection process, and how to receive and screen plans and related documents to assist the review process and the public. Attendees are provided with a high-level overview of code administration, history and customer service. The instructor highlights common information covered in the ICC Permit Technician certification exam throughout the course. Attendees also receive a checklist to use daily when receiving plans from the public at the permit center.

Residential Inspection Fundamentals Updated for 2025: Code Compliance and Best Practices - *New*

ICC PP Course No. 45721 (0.6 CEUs) - In Person

ICC PP Course No. 45722 (0.6 CEUs) - Virtual

AIA Course No. 15: 2025 (6 LU | HSWs)

This course is designed for the residential inspector to perform inspections of a newly constructed single-family residence. Attendees learn about the technical portions of the 2025 California Residential Code (CRC) regarding inspections from foundation, shear, framing, roof, plumbing, electrical, etc. Inspection requirements of mechanical, electrical, and plumbing from the underground to final are discussed as well. Course discussion includes a detailed explanation of the different types of required inspections and how they are related. Whether you are just beginning your journey as a residential inspector or are seeking to enhance your expertise, this course provides invaluable insights and knowledge to elevate your inspection skills.

Don't Forget the Registration Deadlines!*

Burlingame: Thursday, September 18, 2025 at 5:00pm

Costa Mesa: Thursday, October 16, 2025 at 5:00pm

***Registrations and changes are not accepted on-site.**

2025 CTI Education Weeks

Tuesday Course Descriptions

2025 CBC Chapter 11B: Accessibility in Public Buildings, Public Accommodations and Commercial Buildings: History, Use and Updates - *New*

ICC PP Course No. 45723 (0.6 CEUs) - In Person

ICC PP Course No. 45724 (0.6 CEUs) - Virtual

AIA Course No. 18: 2025 (6 LU | HSWs)

This course provides attendees with a working understanding of the disabled-access provisions of the 2025 California Building Code: Chapter 11B, presenting on selected administrative, scoping and updated technical requirements. Supporting documents, tools of the trade, and inspection techniques are explored throughout the course. Attendees gain a practical understanding of topics through detailed illustrations, photos, and examples. Building officials, accessibility plan reviewers, accessibility inspectors, designers, architects, and contractors are encouraged to attend.

2025 California Electrical Code: Significant Changes - *New*

ICC PP Course No. 45813 (0.6 CEUs) - In Person

ICC PP Course No. 45814 (0.6 CEUs) - Virtual

AIA Course No. 23: 2025 (6 LU | HSWs)

Be ready for the changes and new requirements in the 2025 California Electrical Code (CEC), which goes into effect on January 1, 2026. The 2023 National Electrical Code is the basis for the 2025 CEC where this course will cover significant changes in both publications. Attendance to this course will provide insight to the new Class 4 Fault-Managed Power Systems, 10-Ampere branch circuits, Energy Management Systems for load limitations, and SPGFCI's or Special-Purpose Ground-Fault Circuit Interrupters. Included are discussions on expansion of general requirements for GFCI's in kitchens, GFCI protection for specific appliances, expansion of surge protection requirements, barrier protection for electrical equipment, and clarity on GFCI protection for outdoor air-conditioning units. This course is designed for plan check engineers, combination building inspectors, electrical inspectors, building officials, and design professionals.

Have you decided whether to attend virtually or in person?

Read about what to expect from your virtual or in person attendance on pages 15 & 16.

2025 CTI Education Weeks

Tuesday Course Descriptions continue

2025 California Residential Code: Significant Changes - New

ICC PP Course No. 45725 (0.6 CEUs) - In Person

ICC PP Course No. 45726 (0.6 CEUs) - Virtual

AIA Course No. 12: 2025 (6 LU | HSWs)

This course examines the significant revisions to the latest California Residential Code (CRC). The course is conducted in a workshop format with the instructor and attendees participating in active discussions of the revisions. The course highlights those areas that have been revised from the 2025 CRC with other code topics discussed. Building officials, architects, designers, engineers, plans examiners, field inspectors, and counter technicians are encouraged to attend. The course is appropriate for experienced and not-so-experienced users of the CRC. All attendees receive a joint CALBO/ICC publication.

2025 California Plumbing and Mechanical Codes: Code Changes and Reviews - New

ICC PP Course No. 45816 (0.6 CEUs) - In Person

ICC PP Course No. 45817 (0.6 CEUs) - Virtual

AIA Course No. 24: 2025 (6 LU | HSWs)

This course provides an in-depth analysis of the 2025 California Plumbing Code (CPC) and 2025 California Mechanical Code (CMC) updates, comparing key revisions from the 2022 edition. Attendees gain a clear understanding of code modifications, including how they impact mechanical design, installation, enforcement, and compliance. The course breaks down each major change, explaining the reasoning behind the revisions and their practical implications for plumbing and mechanical professionals, inspectors, and code officials.

Permit Technician Career Advancement: How to Properly Screen Plans for Successful Permit Services

ICC PP Course No. 32000 (0.6 CEUs) - In Person

ICC PP Course No. 32001 (0.6 CEUs) - Virtual

This course provides an overview of best practices for permit technicians to ensure an efficient plan review process. Plans are reviewed to provide attendees with an understanding of various and common types, including civil plans, architectural plans, structural plans, electrical plans, fire protection, landscaping plans, mechanical plans, plumbing plans and sewer plans. Attendees also learn how to identify plan revisions, construction documents prerequisites, and explain symbols and abbreviations. A handy checklist is provided to attendees to use during daily plan screening for permit issuance. New and experienced permit technicians are encouraged to attend to strengthen their plan screening experience and technical knowledge.

2025 CTI Education Weeks

Wednesday Course Descriptions

California Electric Vehicle Charging Codes and Regulations - *New*

ICC PP Course No. 45733 (0.6 CEUs) - In Person

ICC PP Course No. 45734 (0.6 CEUs) - Virtual

AIA Course No. 19: 2025 (6 LU | HSWs)

This course provides a comprehensive overview of California’s electric vehicle charging infrastructure, codes and regulations. CALGreen requirements for residential, hotel, motel, and non-residential EV charging infrastructure, including its regulatory history, mandatory and voluntary provisions, and upcoming changes effective January 1, 2026, are discussed. Participants also explore Chapter 11B accessibility provisions for scoping and technical electric vehicle charging requirements in public housing and public accommodations, real-world examples of EV charging spaces on-site and in the public right-of-way, and technical guidance documents published by the U.S. Access Board and proposed rulemaking. Building officials, accessibility plan reviewers, accessibility inspectors, public works inspectors, designers, architects, and contractors are encouraged to attend.

Residential Wood-Framed Construction Structural Fundamentals - *New*

ICC PP Course No. 40362 (0.6 CEUs) - In Person

ICC PP Course No. 40363 (0.6 CEUs) - Virtual

AIA Course No. 12: 2024 (6 LU | HSWs)

This highly visual and engaging course covers wood framing practices, engineering concepts, and code requirements for residential structures. We’ll put together a wood-framed house nail by nail and explain the structural code provisions using common sense terminology along the way. Attendees will gain a solid understanding of wood-framed structures and the skills needed to resolve tough structural situations on plans and in the field. Study topics include: properties of wood as a building material, gravity framing (conventional roofs, roof truss, joists, beams, posts, connections, and foundations), and lateral load path (diaphragms, shear walls, drag struts, and shear transfer connections). The history of residential wood-framed construction will also be explored.

Don't Forget the Registration Deadlines!*

Burlingame: Thursday, September 18, 2025 at 5:00pm

Costa Mesa: Thursday, October 16, 2025 at 5:00pm

***Registrations and changes are not accepted on-site.**

2025 CTI Education Weeks

Wednesday Course Descriptions

continue

Safety Assessment Program: Disaster Response Training for Evaluators and Coordinators - New

ICC PP Course No. 45727 (0.6 CEUs) - In Person
 ICC PP Course No. 45728 (0.6 CEUs) - Virtual
 AIA Course No. 13: 2025 (6 LU | HSWs)

This course trains building inspectors, architects, and civil engineers to conduct field evaluations of buildings and infrastructure following a disaster, assessing damage severity and safety risks. It also prepares Safety Assessment Program (SAP) inspectors for disaster response, including proper documentation and evaluation procedures. Approved by the Federal Department of Homeland Security for grant funding, this training equips local government representatives with the tools to estimate resource needs, request assistance, manage response efforts, and effectively utilize collected data. Updated materials published in September 2023 by the Governor's Office of Emergency Services (Cal OES) are provided and used during the course.

Solar PV Systems in the 2025 California Codes: Single-Family, Commercial and Industrial Installations - New

ICC PP Course No. 45731 (0.6 CEUs) - In Person
 ICC PP Course No. 45732 (0.6 CEUs) - Virtual
 AIA Course No. 16: 2025 (6 LU | HSWs)

This course provides an overview of single-family, commercial, and industrial installation of Solar Photovoltaic (PV) Systems for compliance with 2025 California codes. Plan reviewers and inspectors are provided with checklist items for today's code requirements and calculations. Discussion includes plan review issues, installation requirements, and field installation challenges faced by today's building department and inspection staff. As Solar PV is constantly evolving, this course updates on the latest standards and industry discussions. Whether you are a new to building safety or seeking to enhance your expertise, this course is designed for plan check engineers, combination building inspectors, electrical inspectors, and design professionals.

State Laws Enforced by Building Departments for 2024-2025 - New

ICC PP Course No. 45729 (0.6 CEUs) - In Person
 ICC PP Course No. 45730 (0.6 CEUs) - Virtual

This course features a completely new and updated presentation for focusing on state codes used in the daily work of building departments in 2024-2025. It seeks to provide a better understanding of how state laws are crafted and where to look for state statutes that affect how and why we do much of our work. Focus remains on the Health and Safety Code, Government Code, Business and Professions Code and several other state codes that building departments have responsibilities with. Recent amendments to state law, laws that have been a challenge to implement and enforce, and how to better enforce to ensure compliance are course discussion topics as well.

2025 CTI Education Weeks

Thursday Course Descriptions

2025 California Energy Code: Nonresidential, Single-Family and Multifamily Significant Changes - New

ICC PP Course No. 45739 (0.6 CEUs) - In Person

ICC PP Course No. 45740 (0.6 CEUs) - Virtual

AIA Course No. 14: 2025 (6 LU | HSWs)

This course provides an overview of major changes to the 2025 Energy Code requirements for nonresidential, single-family, and multifamily buildings scheduled to take effect on January 1, 2026. Topics discussed include heat pumps, electric-ready, ventilation and indoor air quality, HVAC, solar PV, battery energy storage systems, controlled environmental horticulture spaces, lighting systems, and pools and spa heating equipment. Information is provided about the Energy Code restructure, tools, and resources.

California Accessory Dwelling Units: Navigating Regulations for Compliance in 2025 - New

ICC PP Course No. 45735 (0.6 CEUs) - In Person

ICC PP Course No. 45736 (0.6 CEUs) - Virtual

AIA Course No. 21: 2025 (6 LU | HSWs)

The California Department of Housing and Community Development (HCD) is the state authority on Accessory Dwelling Units (ADUs) and provides local agencies with assistance in verifying local ordinances are compliant with the most current State ADU Laws. This interactive course by HCD provides additional knowledge, tools, and insight into HCD's ADU program, clarifying the nexus between local enforcement agencies and HCD. Attendees learn to effectively use HCD's ADU Handbook, featuring updates and laws effective January 1, 2025, centering on important and misunderstood ADU topics, including pre-approved ADU plan programs, unpermitted unit amnesty, fire sprinklers, manufactured homes, front setbacks, destructive inspections, owner-occupancy requirements and much more. This course benefits building and planning department staff, architects or contractors seeking to understand and effectively implement State ADU laws and regulations.

Energy Storage Systems in the 2025 California Codes: for Single-Family, Commercial, and Industrial Installations - New

ICC PP Course No. 45743 (0.6 CEUs) - In Person

ICC PP Course No. 45744 (0.6 CEUs) - Virtual

AIA Course No. 17: 2025 (6 LUs)

This course provides an overview of single-family, commercial, and industrial installation of Energy Storage Systems (ESS) for compliance with 2025 California codes. Plan reviewers and inspectors are provided with checklist items for today's code requirements and calculations. Discussion includes plan review issues, installation requirements, and field installation challenges faced by today's building department and inspection staff. As ESS is constantly evolving, this course updates on the latest standards and industry discussions. Whether you are a new to building safety or seeking to enhance your expertise, this course is designed for plan check engineers, combination building inspectors, electrical inspectors, and design professionals.

Thursday Course Descriptions

continue

Plan Review Fundamentals for 2025 CBC Chapters 5 and 6 - New

ICC PP Course No. 45737 (0.6 CEUs) - In Person
 ICC PP Course No. 45738 (0.6 CEUs) - Virtual
 AIA Course No. 20: 2025 (6 LU | HSWs)

This course is intended for design professionals and plan reviewers who want to better understand how to successfully design and review multi-story, mixed used buildings in compliance with the 2025 California Building Code (CBC). Focusing on allowable heights and areas, it covers Chapters 5 and 6 of the CBC using building examples that differ in terms of their occupancy groups, construction types and design elements (e.g., yard vs. no yard, mezzanine, etc.). Code sections that are commonly misinterpreted or overlooked are discussed, as well as changes to Chapter 5 and Chapter 6 of 2025 CBC.

Understanding Scoping and Technical Provisions of the California Building Code, Chapter 11A Housing Accessibility- New

ICC PP Course No. 45841 (0.6 CEUs) - In Person
 ICC PP Course No. 45842 (0.6 CEUs) - Virtual
 AIA Course No. 26: 2025 (6 LU | HSWs)

This course, presented by the California Department of Housing and Community Development (HCD), offers a concise overview of the CBC Chapter 11A, focusing on understanding scoping and technical provisions on accessibility standards for privately funded multifamily dwellings. Participants gain insights into federal and state accessibility laws and best practices for implementation in California. The course also highlights significant code changes from 2022 to 2025 codes related to multifamily dwelling units and provides practical applications through real-world scenarios to ensure compliance. Building officials, accessibility plan reviewers, accessibility inspectors, designers, architects, and contractors are encouraged to attend.

Review the 2025 CTI Education Weeks Online Registration Guide on page 14. You can register for courses online any time!

2025 CTI Education Weeks Online Registration Guide

We hope you'll take advantage of the CALBO Training Institute new and updated courses for your technical and professional advancement. All of the Education Week courses are updated with the 2025 codes to ensure our courses fit your training needs, so don't wait to register.

Secure your spot today by registering instantly using the newly updated online registration portal that makes the process smoother and faster.

Visit the CTI Education Week Online Registration Portal Today!

- Visit www.calbo.org.
- Under the "Professional Development" tab, click "CALBO Education Weeks Registration".

Education Week Online Registration Portal Advantages

- Available 24 hours – register anytime, anywhere
- Three step registration process – average registration takes less than 3 minutes
- New scroll over feature for courses – scroll over each course title for a description and ICC CEU and AIA LU information
- Register multiple registrants in one online submission
- Up-to-date information about closed courses, if any
- Invoice or credit card payment options available
- Receive registration confirmations instantly – both submitters and registrants will receive confirmation emails
- Ability to pay invoices online using the payment link on each confirmation

If you have registration questions, please contact the CALBO Office at info@calbo.org or 916.457.1103.

2025 CTI Education Week:

Virtual Attendance

What to Expect from your Virtual Attendance?

If you have questions, please contact the CALBO Office at 916-457-1103 or info@calbo.org.

One Week Before Each Course

Download the [GoToWebinar application](#) on an electronic device. Without this application, courses cannot be watched by a virtual attendee. Each attendee must log into their GoToWebinar classroom with their personalized join link and watch the course(s) for credit.

Two Days Before Each Course - GTW Join Link and Materials Link

Each attendee is emailed a personalized GoToWebinar join link and a course material download link 48 hours before each course. Audio and visual can be accessed with the join link. Each join link is unique to each attendee and may NOT be shared with others. Please download and save the course materials as the links expire after each course concludes.

Day of Each Course

Each attendee should use their personalized GoToWebinar join link to enter their online classroom on the course day after 7:30am. Courses start at 8:00am. Audio and visual can be accessed with this link. Please consult the conference program for daily schedule and break times. ***IMPORTANT: Virtual attendees must log into their online classroom using their personalized GoToWebinar join link to WATCH the entire course to receive credit. Logging out of a virtual classroom or calling into a webinar without using the link to watch the course disqualifies an attendee from earning CEUs, thus an attendance certificate will not be issued.***

Virtual Experience

CALBO has invested in production resources to live stream courses from Burlingame and Costa Mesa. Courses are taught live with an additional subject matter expert in the classroom to work with virtual attendees in real-time. Attendees may pose questions through the chat feature on GoToWebinar and expect to receive a response.

Breaks

There are plenty of planned morning and afternoon breaks along with lunch to ensure the ability to stretch and regain focus. Please consult page 5 for the daily break times.

Attendance Certificate

Each attendee is emailed their attendance certificate, which is also printable, within 48 hours of each course. All courses are approved by the ICC Preferred Provider Program and most courses are approved by The American Institute of Architects. For six-hour courses, 0.6 CEUs is granted. Attendees must log into their virtual classroom with their personalized GoToWebinar join link and watch the course for the entire duration to receive credit.

Evaluations

Each attendee is emailed an online course and instructor evaluation after each course concludes to provide feedback about their learning experience.

2025 CTI Education Week:

In Person Attendance

What to Expect from your In Person Attendance?

If you have questions, please contact the CALBO Office at 916-457-1103 or info@calbo.org.

Venue Summary - Burlingame

Hyatt Regency San Francisco Airport
1333 Old Bayshore Hwy | Burlingame, CA | 94010

Day Self-Parking: \$15.00 per vehicle, per day with special validation at CALBO Help Desk.
 Overnight Self-Parking: \$15.00 per vehicle, per overnight. *This discounted rate must be requested and is not guaranteed unless overnights are booked using the CALBO hotel room block.*

Venue Summary - Costa Mesa

Hilton Orange County/Costa Mesa - 3050 Bristol St | Costa Mesa, CA | 92626

Day Self-Parking: \$10.00 per vehicle, per day with special voucher at CALBO Help Desk.
 Overnight Self-Parking: \$18.00 per vehicle, per overnight. *This discounted rate must be requested and is not guaranteed unless overnights are booked using the CALBO hotel room block.*

Two Days Before Each Course

Each attendee is emailed a link to download their course materials 48 hours before each course starts. Please save the materials as the links expire after each course concludes. Tablets, laptops and personal electronic devices are highly encouraged inside the classrooms.

Day of Each Course

In person classrooms open each day at 7:00am. All courses run from 8:00am – 3:30pm.

Course Materials

Please remember that this is a paperless event. Course material links are emailed to attendees 48 hours before each course. Attendees are encouraged to either print their materials or bring a tablet, laptop and personal electronic device to follow the material during the lecture. Each classroom is Wi-Fi enabled. **IMPORTANT: No printed materials are provided by CALBO.**

Breaks and Lunch

There are plenty of planned morning and afternoon breaks along with lunch to ensure the ability to stretch and regain focus. Please consult page 5 for the daily break times.

Attendance Certificate

Each attendee is emailed their attendance certificate electronically, which is also printable, within 48 hours of each course. All courses are approved by the ICC Preferred Provider Program and most courses are approved by The American Institute of Architects. Each in person attendee must sign the course roster inside their classroom each day to receive CEUs. This is the only way to verify in person attendance.

Evaluations

Each attendee is emailed an online course and instructor evaluation after each course concludes to provide feedback about their learning experience.
